

Mobile App Tile Descriptions

Help Desk

Create and manage help desk requests directly to your community. Track the progress of your request and interact with Admin to resolve your query faster.

My Properties

View your property details and any other information or documentation that has been loaded by your community. If you are an owner you can also set the GPS-coordinates of your property.

Documents

View or download documents relative to your community.

Directory

View a list of contact details relative to your community. Clicking on the phone icon will prompt you to dial the number and clicking on the email icon will open up your email platform to send to that email address.

Management

View information of the HOA Staff and Directors. Contact Details are also visible where you can easily click on either phone or email icon to prompt the interaction.

Classifieds

Create your own classifieds post. If you have something to sell or giveaway and want the community to know about it, post it under the Classifieds. You can also set when the post should be removed or remove it when it is sold.

Events

View and RSVP to upcoming events in your community.

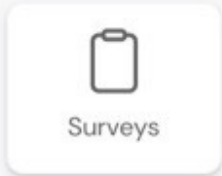

Gallery

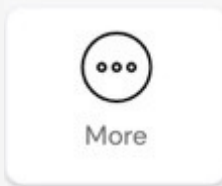

Scroll through albums of pictures uploaded by your community.

View available and reserved booking slots on the communities facilities, such as Tennis Courts or Gyms. You can cancel a booking ahead of time and view more information and rules about a facility.

Participate in surveys created by your community.

View other external pages relative to your community.

The Home button navigates you to the Homepage

You can trigger an emergency button and your emergency contacts will be instantly notified via SMS, Email and Push Notification.

The Communication Centre button navigates you to the Communication Centre page.

Manage your personal information.

Manage your pet information.

Manage your vehicle information.

Manage your connections.

Download

the De Zalze Winelands Golf Estate Mobile App

Residents can download the app for FREE to communicate with management, and access all information they require.
